

AZZURRA

BATHROOM FURNITURE

Product Catalogue

A modern bathroom vanity featuring a large, circular mirror with a glowing white border. The mirror reflects a wall with a grid pattern and a spherical light fixture. Below the mirror is a wooden vanity unit with a light-colored wood grain. On the vanity, there is a white faucet and two bottles. A white rectangular box is overlaid on the top left of the image.

About Us

Azzurra originated in Italy over 30 years ago and quickly earned its self a reputation throughout Europe as being a premium products provider, offering local markets bathroom furniture that exude the finest standards in design and workmanship.

Azzurra arrived in Australia over a decade ago and continued their very proud tradition of producing products that specifically meet market needs. From 3/2 litre dual flush toilet suite technology through to the 6 star WELS rated tapware, Azzurra refuses to compromise in the pursuit of sustainable technology for a sustainable world.

Azzurra is supporting the local Australian markets with a centralised distribution centre in the hub of the commercial precinct at Brendale in Queensland. These facilities are home to Azzurra's Sales & Administration team, Quality Assurance Program & Factory Assembly area, Watermark Certified Lab Testing Facilities & Warehouse.

ECO RANGE

Saving Water and Energy is just the beginning

We've devised a system with Drainwave Australia that takes Azzurra's 6 Star WELS rated toilets and taps and transforms them into a super-efficient ecosystem of bathroom products with the sole purpose of saving water, energy, and money on auto-pilot. This technology is so simple, that it requires no user intervention, no specialist trades or expensive tools to install and requires zero power to operate.

Azzurra has been manufacturing bathroom products for over 20 years and we hear from our clients every day about how hard it can be to shift consumer habits, so we've listened very carefully and adopted a different approach to sustainability, one that is in harmony with human nature, we've been engineering and improving the operation of our ranges and not the process of how and when we use these items.
